

Blueprint for Upcycling

Because paper and cardboard are made from trees, it's good to use boxes in new ways. That way, fewer trees will be cut down. Decorate the boxes to turn them into other things to play with. Next time you have an empty box, try one of your ideas! You might make:

- houses
- cars
- art supply box
- beds for dolls or stuffed animals
- boats
- castles
- treasure boxes
- ...or anything else!
